

## **World Irrigation Revolution (WIR)**

**Prof. Sekhara Gowd Mitta, Prof. Earanna. S, & Dr. Suresha K.V**

Water, Water everywhere, there is no sufficient water for Irrigation. Almighty is given plenty of water for mankind. The problem with the mankind is non-effective utilization, self-centered thoughts at micro level made the countries to suffer.

The world organizations collectively think on these global and also country wise irrigation problems for sufficient water for agriculture and drinking so that no country should suffer. There is a dire need of sharing technology, science, research works for the betterment of the globe. The countries which are having the research knowledge base have to study the problem through their respective satellites to find the solutions. It is evident that some countries do not have the sufficient drinking water.

In Ancient India, Rain produce revealed the technology through epics. Like this may be other countries also have the technology which is not given importance. Almost all the advance technology in the world already the world is reading in the form of stories of epics. The Scientists rather than focusing on routine research, for moment sake if they think that the epics are correct, then their focus will change to find the easy solutions. Present cloud bursting is the old technology of epics. So, there is an urgent need of studying relevant Vedic sutras or epics countrywide and bring into the common platform for brainstorming sessions.

Presently, in India ISRO is doing a great research work in all the fields including irrigation. If ISRO also take the advice of epics, astrology and the world countries or the world organizations collectively form the World Irrigation Summit- WIS to solve the irrigation problem at global level.

The leaders of the world should study the lakes and importance of the ancient civilizations in solving the water problem.

### **Prof. Sekhara Gowd Mitta,**

Founder & Managing Editor, AIJRMSST, Tumkur, Karnataka State, India.  
& Assistant Professor, Dept of MBA (PGDMS), Kalpataru Institute of Technology, Tiptur, Karnataka State, India.

### **Prof. Earanna. S,**

Associate Professor, S.S.R.G. Womens College, Raichur, Karnataka State, India.

### **Dr. Suresha K.V.,**

Associate Professor of Commerce,  
JSS College of Arts, Commerce & Science(Autonomous),  
Ooty Road, Mysore, Karnataka State, India.  
and Acme Intellects Group
